

# CATÁLOGO DE PRÓTESES

## Catálogo de próteses Mao3D - UNIFESP SJC

### **Modelo: Team Unlimbited Arm v2.1**

Esse modelo de prótese possui 32 peças divididas em 6 conjuntos: falange distal (fingers), falange proximal (phalanx), palma (palm), antebraço (forearm), cotovelo (cuff), pinos (pins). Nós do Mao3D acrescentamos mais um conjunto que são os pinos do cotovelo (cuff pins). Cada peça pode ser impressa em uma cor diferente (Fig.1).

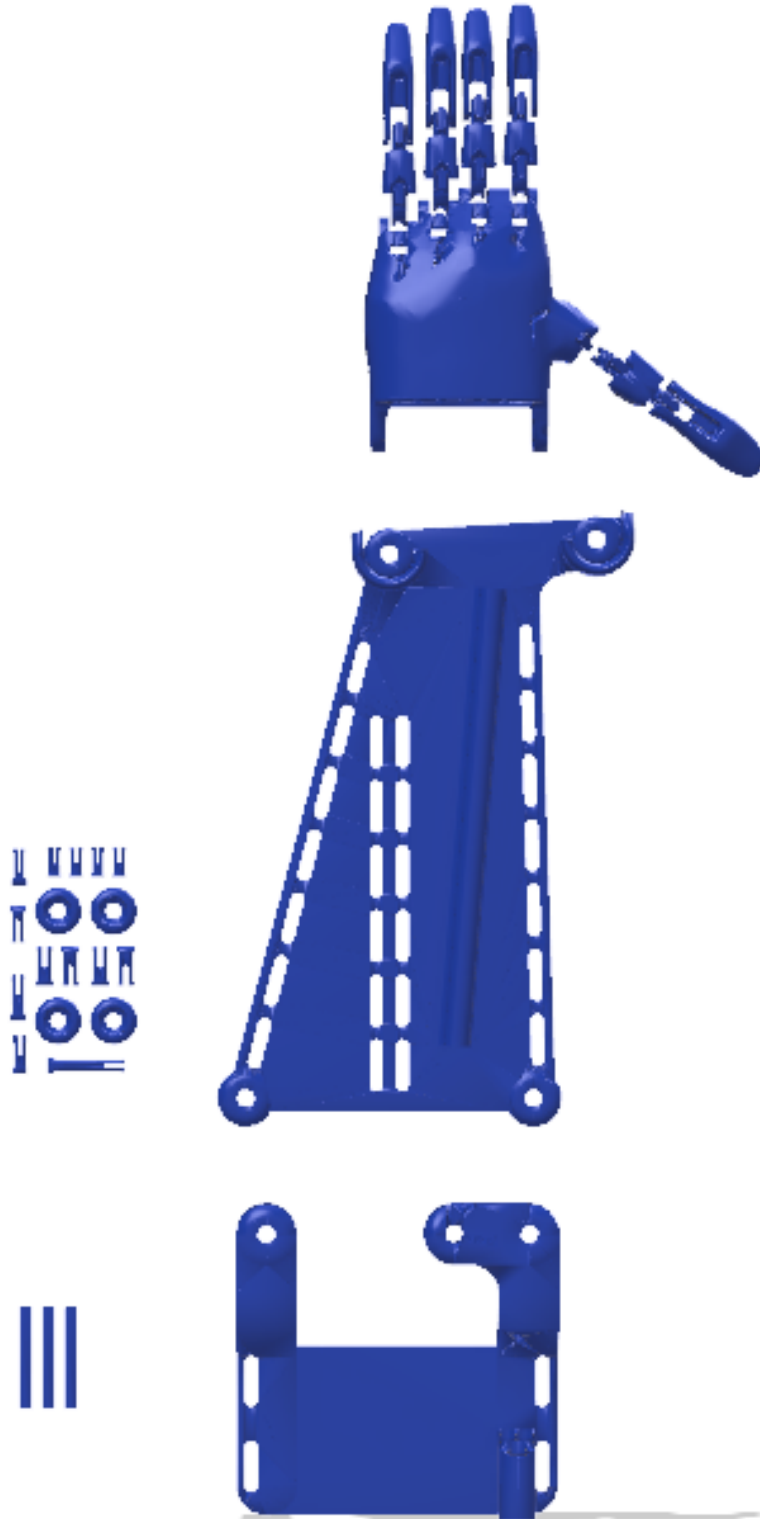

Aqui pretendemos apresentar alguns modelos já prontos e algumas ideias de cores e personagens, porém fique a vontade para criar um modelo único. Os modelos das nossas próteses podem ser encontrados no site <http://enablingthefuture.org/>. A versão utilizada para a customização no Autodesk Fusion 360 pode ser baixada e modificada neste link: <https://a360.co/34G82nx>.

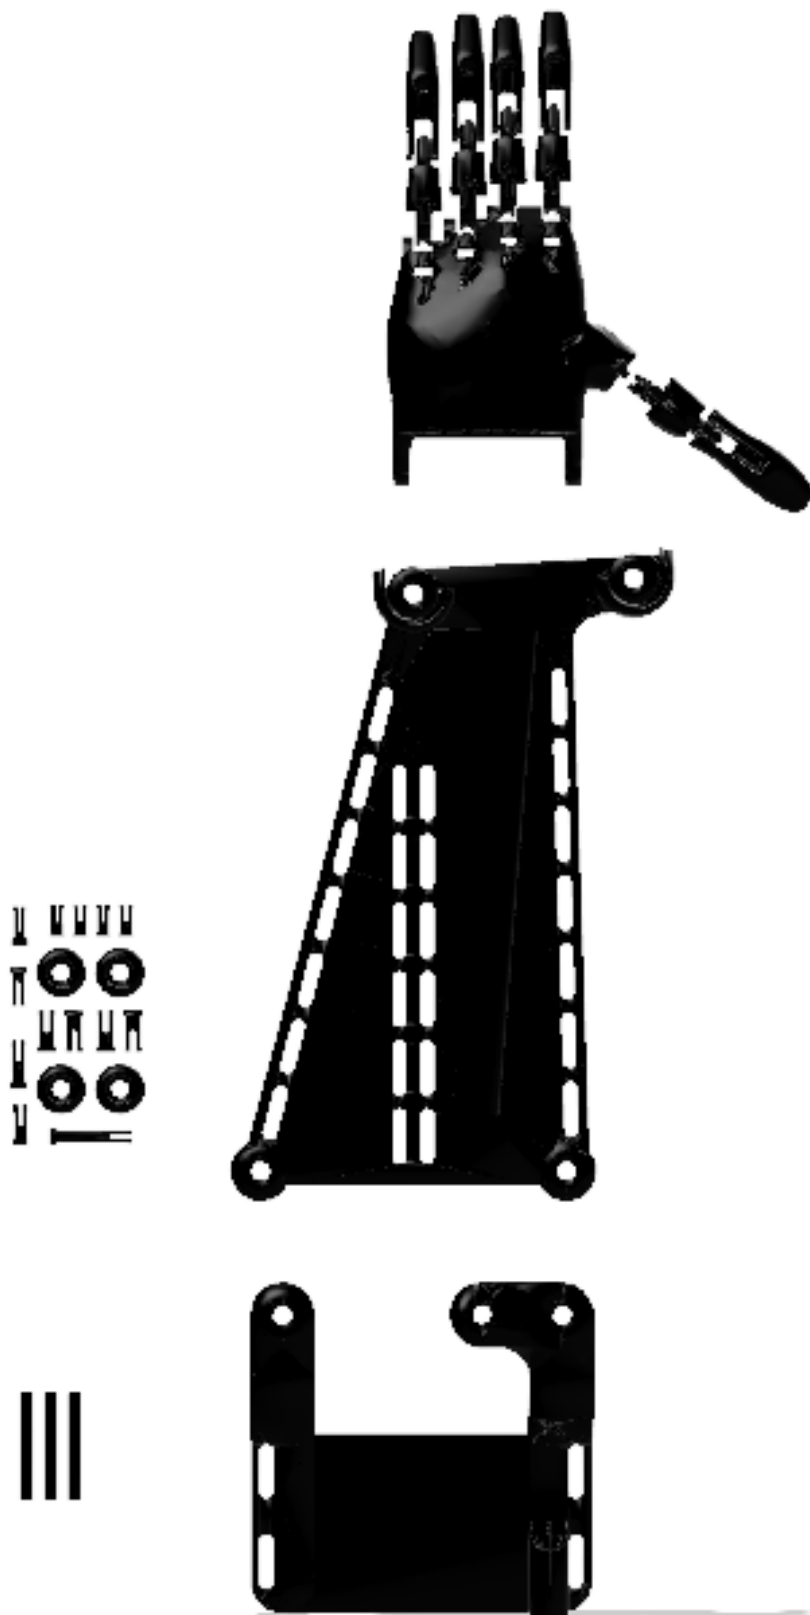

## SUMÁRIO
